

Annual Report
TOWN OF
BUXTON

Every man is said to have his peculiar ambition. Whether it is true or not, I can say, for one, that I have no other so great as that of being truly esteemed of my fellow-men by rendering myself worthy of their esteem

—A. LINCOLN

School Report

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Superintending School Committee and Citizens of the Town of Buxton.

The annual report is herewith submitted:

This is a day of new and challenging issues in Education. It is recognized today that it is the duty of the schools to set forth clearly the importance of our American institutions, and the privileges of the American way of life. Here in the schools we believe the lessons of Democracy are best taught even in the lower grades. Textbooks are now being published that set forth these lessons of civic responsibility. The older groups in High School study civics and problems in Democracy. Vocational training especially in mechanical lines is stressed more today than ever. It is of fundamental importance that some provision be made for setting up schools to supply trained workers for any emergency that may arise. The defense program includes many important educational activities. No objective is more important than Physical Education. Physical fitness is of the utmost importance in training for National efficiency. Education will fail if it does not set up specific habits for better health and citizenship.

State School Fund And Support Of Schools

The amount received from the state during the past eight years has been steadily decreasing. This decrease has made necessary increased appropriations for High and Elementary Schools.

The income for the State School Fund comes from a 3 1-3 mill tax on the valuation of the State; the interest on the permanent School fund and one half of the tax on savings

banks and trust companies. All expenditures for every type of school are paid out of this fund except \$200,000.00 of Equalization allocated by an act of the Legislature of 1937. There has been a shrinkage of \$495,000.00 in a period of 8 years due largely to a reduction in State valuation.

Bills are now before legislature for the purpose of making sufficient funds available to guarantee \$3.00 for each child returned on the census list and restore an apportionment of 1½ cents per pupil per day on the basis of the aggregate attendance of Elementary and secondary pupils. Such Legislation would restore the School Fund approximately to where it was in 1932.

Schools Closed And Conveyance Furnished

It has seemed wise to close schools with small enrollments and convey the pupils to larger schools. It is always more expensive to maintain small schools. Usually the work can be made more interesting and better work accomplished in the larger schools. It was decided to close the N. C. Watson and Shadigee Schools and convey the pupils. This decision was made in view of the small enrollment in each school, also in view of the fact that it would be necessary to furnish conveyance to these schools this year even if these schools were maintained. A considerable saving was effected for the town by conveying the N. C. Watson pupils to the Buxton Center School and the Shadigee pupils to the West Buxton School. With a slight additional cost for conveyance—a saving of at least \$30.00 a week (\$1,020.00 a year) is effected. This saving is accomplished by employing one bus for two routes; and we are saving on teachers' salaries, and the costs of janitors and fuel. There are no districts today and the law provides that the committee shall determine the classification of scholars and what schools they shall attend and that the committee may close a school for not more than one year when the enrollment becomes too small for profitable maintenance.

The New Sound Motion Picture Machine

We have been very fortunate in being able to provide our High School with the best of equipment including the new mimeograph. We are encouraged to buy such equipment because of the care with which it is used in the school.

This year we had sufficient funds to buy a sound motion picture machine. The machine was purchased of the Bell & Howell Company. The price of this machine was \$410.00 with a discount to schools of \$41.00 and an allowance of \$65.00 for the old silent machine; \$40.00 was paid by the school and \$264.00 was paid out of the Hanson Fund. The Hanson Fund was a great help in the purchase of this machine. And this was the purpose of the fund to provide extra things for the school which otherwise might not be available.

Motion pictures are a valuable help in supplementing textbook work. Our silent machine furnished very instructive aids on many phases of school work. But by combining sight and sound the talking picture commands a concentrated attention that is difficult to secure in any other way. The student can recreate a lesson from science or history from some remote part of the world as vividly as if present. There are many free commercial films which have a special value in vocational training. Educational films have a useful place in teaching history, science, and literature.

Increase In High School Enrollment And State Requirements

There will be a large entering class in the high school another year. We are confronted with the problem of taking care of this large class and the increased enrollment of over 100 pupils in the school. The assembly hall with 66 seats will be inadequate. Extra textbooks must be provided. The recitation rooms are not large enough to care for the nearly 60 pupils expected in the Freshman Class. Our present

teaching force is very satisfactory and it is hoped that these teachers can be retained in view of this increased enrollment and crowded condition.

It will be necessary to meet the requirements of the State Department of Education and add a fourth teacher to the teaching force in the High School. The pupil-teacher ratio in a class must not exceed 30. This means that the number of pupils divided by the number of teachers in any school of Class A grade must not exceed 30. No teacher shall have more than seven periods of recitation and classroom supervision. The class A High School as further defined must provide not less than 16 units of work. A unit is a subject pursued for five periods a week for 36 weeks. The recitation period shall be at least 40 minutes in length. It is also required that an annual expenditure shall be made of not less than \$75.00 for the laboratory and not less than \$75.00 for the library. It is necessary to meet these requirements, otherwise the High School would lose its class A standing.

This situation in regard to the increased enrollment and the employment of a fourth teacher has been taken into consideration in recommending the appropriations for another year.

In view of the savings effected this year by consolidation of schools it seemed that we could afford the purchase of new seats and desks for the West Buxton School, to replace the old double seats and desks. The old seats were unsightly and very much worn. Twenty new adjustable desks were purchased. These desks are painted in a light brown color and are free from glare. The new desks render this room very attractive in appearance.

It has been the policy of the town to keep all buildings in a good state of repair. In this way school property is kept from deterioration. In one room buildings heated by box stoves it is difficult to keep the interior of each building painted in light colors and the walls and ceilings free from smoke. However we should plan to clean and paint certain buildings another year in order to secure better light and improve the appearance of the school room.

This year it was necessary to paint the exterior of the high school building. This building presents a greatly improved appearance.

It was necessary to comply with a State Ruling and purchase fire extinguishers for the school bus drivers. These new requirements are made to properly safeguard pupils riding on busses. Drivers should exercise every precaution to provide safe transportation of pupils.

Respectfully submitted,

GEORGE E. JACK,
Superintendent of Schools.

Report of the West Buxton Library Association

We again wish to thank the Towns of Buxton and Hollis for their generous donations, which have enabled us to purchase many new books, that we feel have given much pleasure during the past year.

We also want to thank Mr. Hargraves again for the use of the rooms for the Library, to those who have volunteered as librarians, and to Mrs. Katherine Rowe, Mrs. Helen Libby and the River Road Library for their donation of books.

The cooperation of all have helped us to carry on.

We had 3,610 books on hand when we made our last report, and have added 206 fiction, 9 non fiction and 25 juvenile making a total of 3,850 usable books on hand at the present time.

We have loaned 2,361 adult books and 41 juvenile.

The same officers were again elected for another year.

Report of Berry Library

January 1, 1940 to January 1, 1941

The library has been open every Wednesday afternoon from 1.30 to 5.00 and evening from 6.30 to 8.30 with the exception of Wednesday, December 25.

Number of books in circulation,	3,556
Number of books loaned for the year,	4,963
Number of books purchased,	80
Number of books given by Mrs. Fred McKenney of Wellesley, Mass.,	150
Unexpended funds January 1, 1940,	\$32.62
Received from town appropriation,	50.00
Received from State stipend,	5.00
Received from fines and pay books,	24.14
Received from food sale,	7.87

A set of Encyclopedias have been purchased which we think will be of great benefit to the patrons, as it includes a Loose Leaf Extension Service. Amount received from fines, pay books, State stipend, and food sale has been used toward payment on these books.

We wish to thank Dr. A. G. Wiley, Mrs. Terry Hurlbut, and Mrs. Fred McKenney for magazines and books donated. At present we have a balance of \$1.97 unexpended funds, and \$7.33 remaining of the town appropriation.

Respectfully submitted,

ORA JOSE,
Librarian.

Report of Buxton-Hollis Hospital

In submitting our report this year, we wish to express our gratitude and appreciation of the many and various forms of assistance extended by different individuals and organizations to the Hospital.

The tonsil clinic was very well attended, thirteen children of Buxton having tonsillectomies, and a minor operation performed on the fourteenth. Also medical service amounting to twenty dollars was given. In addition to this twenty High School boys have been given four complete physical examinations in connection with their basketball work.

There were two hundred and ten patient days charged to the Free-bed Service this year. This service was used by five different patients.

We operated our dental clinic more extensively this year, there being twenty-eight dental clinic days. Dr. Lord of Biddeford conducted these in July and Dr. Merriam of Bar Mills in August and September.

One hundred and twenty-three children from the town of Buxton were examined and had their teeth cleaned in the dental clinic. These children had a total of ninety-two extractions and three hundred and ninety-six fillings.

Blister Rust Control

January 1941

To the Board of Selectmen, Town of Buxton, Maine,

Gentlemen:

It is our desire to show by the following report, the results obtained in your town on blister rust control work during 1940.

The cooperation extended by the selectmen and townspeople, has been most beneficial to us in controlling this disease.

Two WPA crews were employed. One foreman was paid out of town funds part of the season:

Number of men employed,	11
Number of acres worked by crews.	2,163
Number of wild currant and gooseberry bushes pulled,	96,061
Amount of WPA funds for labor,	\$1,475.00
Amount of WPA funds for transportation,	97.92
Amount of town funds for labor,	100.32
Total amount spent for control work,	1,673.24
Recommendation for 1941,	\$100.00

We are making excellent progress in controlling this disease in your town. However, as there are additional white pine lands which need protection, we plan to continue the control work this coming season.

Every effort will be made to allot a WPA crew to your town. In expressing your desire to have the control work continue, we trust you will consider the above recommendation at your annual town meeting.

Very truly yours,

G. H. KIMBALL,
*Chief Scientific Aid,
 Plant Disease Control.*

U. S. Department of Agriculture and Maine
 Forest Service, cooperating agencies.

Report of Sealer of Weights and Measures

Feb. 10, 1941

To the Municipal Officers and Citizens of Buxton:

I herewith submit the following report as Sealer of Weights and Measures.

I have tested 29 sets of scales, 35 weights, 28 gas pumps, 3 oil pumps, 2 liquid measures.

Account of above also submitted to State Department of Weights and Measures.

Respectfully submitted,

HAROLD R. NASON,
Sealer of Weights and Measures.

Report of Fire Ward

To the Municipal Officers and Citizens of Buxton:

I herewith submit the following report for the fire department for the year 1940.

During the past year your department answered forty calls.

Sixteen were chimney fires, six buildings, three out of town fires, seven grass and forest fires, four car and tractor fires, three false alarms, and one fire caused by lightning.

Respectfully submitted,

MAURICE R. GOODSON,
Fire Ward.

Report of Auditor

March 27th, 1940

To the Inhabitants of the Town of Buxton:

This is to certify that this department, represented by Mr. M. W. Bragdon, has completed an audit of the accounts of your town officials for the municipal year ended February 6, 1940.

Our report, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of the above date.

We wish to thank your town officials for their cooperation during the course of this audit.

Respectfully submitted,

State Department of Audit,

HAROLD E. CRAWFORD,

Chief Auditor.

March 1st, 1941

To the Inhabitants of the Town of Buxton:

In accordance with your request, this department, represented by Mr. M. W. Bragdon, has completed an examination of the accounts of your town officials for the municipal year ended February 4, 1941.

Our report, herewith submitted, was prepared from your town records and, to the best of our knowledge and belief, properly reflects the true financial condition of your municipality as of the above date; subject however to a possible shrinkage in the final settlement of previous years' taxes and tax deeds, also to a quite substantial shrinkage in the impounded balances of general cash and trust funds.

COMMENTS

Cash

All cash recorded as received appeared to be properly accounted for and deposited in the bank.

The expenditures were made by check from properly authorized warrants.

The cash balance was reconciled with the bank.

Tax Deeds

The unpaid tax deeds were examined and are listed on Schedules 3 and 4. All income from tax deeds during the year was apparently accounted for.

Trust Funds

The investments were examined and are listed on Schedule 5.

An amount of \$2,339.63 is impounded in the Casco Mercantile Trust Company and will no doubt be subject to a substantial loss when the final dividend is paid.

The Hanson Trust Funds for cemetery and high school have been used by your town. It would seem that some action should be taken toward the restoration of these two funds which amount to \$7,000.00.

Taxes

The 1940 commitment was added and after an adjustment of 16 cents was made appeared to be correct.

The abatements were checked for authority, and together with cash to the Treasurer, tax deeds, and uncollected 1940 taxes (Schedule 2) appeared to balance the commitment.

The collections on prior years' taxes were apparently accounted for. With the exception of those for 1936 and prior, the unpaid balances are also shown by Schedule 2. We were unable to obtain a list of the unpaid items for 1936 and prior.

General

As far as could be determined, the records of your town officials were in proper condition and all entries checked were supported by subsidiary records.
